

Troy, Michigan, January 2, 2007: Systems Technology Group, Inc. (STG) announced that it was recognized to the 2006 Diversity Business list of 100 Top Asian American owned businesses in the United States of America. STG ranked 34th on the list of 100 Asian owned companies in the US. STG placed 47th in last years rankings.

The Div500 is the annual listing of the US top 500 diversity-owned businesses. Ranging in revenue size from \$12 million to over \$1.8 billion, the companies listed on the Div500 represent the Nation's top multicultural earners and challenge the long-held notion that a diversity-owned business is small or insignificant.

The Div500

The Div500 is a classification that represents the Top 500 diversity-owned (women, Blacks, Hispanics, Asians, Native American and other minority groups) businesses in the U.S., in sectors such as technology, manufacturing, food service and professional services. Major corporations, government agencies and college/universities throughout the country that do business with multicultural and women-owned businesses use the list. The Div500 is produced annually by DiversityBusiness.com, the nation's leading multicultural B2B Internet portal that links large organizational buyers to multicultural product and service businesses.

"The **Div500** companies are the heroes of diversity-owned business in America," said Kenton Clarke. These are the people that have conquered the hurdles and made the sacrifices, building and strengthening their communities, providing jobs and helping to keep the fabric of the U.S. economy together."
