

Troy, Michigan, July 7, 2009: Systems Technology Group, Inc. (STG) is pleased to announce that the Michigan Department of Education (MDE) has awarded STG an IT Application Outsourcing contract for the design, development, implementation and maintenance of a new Michigan On-Line Teacher Certification System.

This system will be fully web-enabled and will provide Michigan K-12 teachers and other persons in the education field the flexibility and ease of applying or renewing their state teaching certifications via the internet.

Michigan law requires that a person employed in an elementary or secondary school with instructional responsibilities shall hold a certificate, permit, or vocational authorization valid for the positions to which he/she is assigned.

MDE's objective in replacing its L2K system is to ensure that all educational personnel seeking certification who meet all legal requirements are processed in an expedient and efficient manner, and to ensure that Michigan schools employ fully certified educators for positions requiring state licensure. The new web Online Teacher Certification will enable this efficiency.

About Systems Technology Group, Inc. (STG)

Headquartered in Troy, Michigan, USA, STG is SEI CMMi Level 5 information technology Services Company specializing in providing the Fortune 500 companies with software and systems integration services.
