

**Troy, Michigan, August 16, 2004** - Systems Technology Group, Inc. (STG) announced that DaimlerChrysler Corporation awarded STG the Application Software Development Outsourcing Contract for the Chrysler Group North America Service Contracts Extended Warranty Service Contracts Phase II initiative.

Under this fixed price outsourcing agreement, STG will develop Internet systems that will support Chrysler Group North America Service Contracts Extended Warranty business. STG will develop these systems using STG's proprietary PRIDE® J2EE/XML framework.

These new systems developed by STG will essentially replace all legacy systems supporting Chrysler Group North American Service Contracts business.

STG was awarded Phase II of this initiative because of STG's quality and on time and within budget execution of Phase I.

**About Systems Technology Group, Inc. (STG)**

Headquartered in Michigan, STG is an information technology services company specializing in application software development, strategic outsourcing, and software integration services. STG's clients gain a competitive advantage by leveraging STG's unique onsite, offsite and offshore delivery capabilities and SEI CMMi Level 3 processes.
