

**Troy, Michigan, August 6, 2004** - Systems Technology Group, Inc. (STG) announced that La-Z-Boy has selected STG to define, architect, and develop their Security Single Sign-On system.

STG's delivery team will provide technical architecture consulting and technology development to help La-Z-Boy define business processes and technologies dedicated to creating, managing and revoking sign-on identities for La-Z-Boy's enterprise. This application will help them authenticate users access to information systems both inside and outside the La-Z-Boy enterprise.

**About Systems Technology Group, Inc. (STG)**

Headquartered in Michigan, STG is an information technology services company specializing in application software development, strategic outsourcing, and software integration services. STG's clients gain a competitive advantage by leveraging STG's unique onsite, offsite and offshore delivery capabilities and SEI CMMi Level 3 processes. STG's successful on-time and within budget track record has helped STG achieve a 90% repeat business referral rate from customers.
