

Troy, Michigan, April 3, 2006: Systems Technology Group, Inc. (STG) announced that the State of Michigan has awarded STG a 2 year application outsourcing contract to assist the State on several information technology initiatives including the Motor Carrier Safety Improvement Act (MCSIA) project, USA Patriot Act project, Driver Responsibility Fees (SB509) project, Help America Vote Act (HAVA) project and CVISN Permanent Fleet Plate project.

In addition, STG will provide application management services to maintain and support the following Michigan Department of State systems. They include:

- Driver Licensing & Driver Activity Systems
- Vehicle Title and Registration and Financial applications/systems.

STG will also be providing cost effective methods to improve Department of State Driver, Vehicle and Financial systems.

About Systems Technology Group, Inc. (STG)

Headquartered in Michigan, STG is an information technology services company specializing in application software development, strategic outsourcing, and software integration services.

STG's clients gain a competitive advantage by leveraging STG's unique onsite, offsite and offshore delivery capabilities and SEI CMMi processes. STG's successful on-time and within budget track record has helped STG achieve a 90% repeat business referral rate from customers.
