

**Troy, Michigan, May 12, 2006:** Systems Technology Group, Inc. (STG) announced the successful on-time within budget completion of the General Motors Global Vehicles Dynamics Test System.

STG was awarded the GM Global Vehicles Test System contract. Under this contract, STG was responsible for the business process definition and detailed system design for three primary GM automotive engineering functions. This includes Chassis, Ride, and Handling systems for GM's Product Development group.

### **About Systems Technology Group, Inc. (STG)**

Headquartered in Troy, Michigan, USA, STG is a global information technology services company specializing in providing the Fortune 500 companies with software and systems integration services. Specifically, STG specializes in Software Application Development, Data warehouse, Business Intelligence/Analytics, Service Oriented Architecture, Legacy Migration, and Software Integration services.

STG's clients gain a competitive advantage by leveraging STG's unique onsite, offsite and Global Offshore Delivery capabilities and SEI CMMi processes. STG's successful on-time and within budget track record has helped STG achieve a 90% repeat business referral rate from customers including General Motors, Mercedes Benz, Ford Motor Company, DaimlerChrysler Corporation, La-Z-Boy, SBC Communications, and several others.
