

**Troy, Michigan, January 26, 2006:** Systems Technology Group, Inc. (STG) announced the successful on-time within budget completion of the General Motors Corporation B2C Owner Center system.

This system is the primary business to consumer channel between General Motors and their vehicle customers worldwide. GM Customers can leverage this portal to access information about their cars, warranty, service, and other services offered by GM. In addition, all GM Onstar customers will receive monthly diagnostics reports of their vehicle thru this application.

The GM Owner Center application can be accessed on General Motors web site at [www.gm.com](http://www.gm.com).

### **About Systems Technology Group, Inc. (STG)**

Headquartered in Troy, Michigan, USA, STG is a global information technology services company specializing in providing the Fortune 500 companies with software and systems integration services. Specifically, STG specializes in Software Application Development, Data warehouse, Business Intelligence/Analytics, Service Oriented Architecture, Legacy Migration, and Software Integration services.

STG's clients gain a competitive advantage by leveraging STG's unique onsite, offsite and Global Offshore Delivery capabilities and SEI CMMi processes. STG's successful on-time and within budget track record has helped STG achieve a 90% repeat business referral rate from customers including General Motors, Mercedes Benz, Ford Motor Company, DaimlerChrysler Corporation, La-Z-Boy, SBC Communications, and several others.
