

Troy, Michigan, March 21, 2005 - Systems Technology Group, Inc. (STG) announced the State of Minnesota, Department of Health has awarded STG an application outsourcing contract to develop and implement a robust and extensible internet application that provides the capability for organizations and citizens to renew their Department of Health licenses through the Internet. The name of the project outsourced to STG is Improved Customer Delivery Service.

The purpose of this Internet application is to allow for Minnesotans to easily apply or renew over 18 different licenses governed and issued by the Minnesota Department of Health. STG will be developing this system using J2EE, Struts, Oracle 10G Application Server and Oracle 10G database.

About Systems Technology Group, Inc. (STG)
